

# CREATE

WALLCOVERINGS

Contributes to  
healthier living  
& work spaces

Natural resource  
conservation;  
pollution reduction

Comply with  
OEHHA that  
prohibits toxic  
chemicals &  
reproductive  
harm

## Create Welcomes You!

Wallcovering is selected for various characteristics: aesthetics, durability, sustainability. At Create Surface Design, we offer options in line with demand but ahead of our time. Three instrumental words define Create's philosophy: intent, intuition, & implementation. Our intent is to offer fabulous design. Intuition tells us great design must be highly functional. Implementation combines intent & intuition transforming commercial wallcovering into a socially responsible option. Create expands a designer's ability to decide what does and does not go into their interiors. We think choice is a good thing.

1

### NO PHTHALATES

endocrine disruptors

2

### NO HEAVY METALS

antimony, arsenic,  
barium

3

### NO FORMALDEHYDE

carcinogen
