

Ultra Fresh® Anti-Microbial

All Create Wallcovering offer clients the proven effectiveness of Ultra-Fresh® Antimicrobial Protection.

Ultra-Fresh® is an EPA-registered compound that is added to the wallcovering compound during manufacturing. It provides a long-term solution for microbial protection & product cleanliness by inhibiting the growth & reproduction of bacteria, mold and mildew - organisms that cause odors, staining, & deterioration.

The Ultra-Fresh® Advantage

- provides built-in protection from odor & stain-causing mold, mildew, & bacteria
- Extends the life and durability of the wallcovering
- Ultra-Fresh® chemistry is EPA-registered and Oeko-Tex® listed
- Protects at full strength over the normal life of the product (5 years)
